# Environmental Benefits

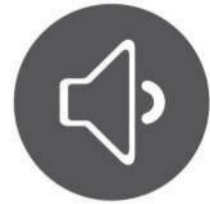

**ZERO EMISSIONS**

**NO TOXIC  
CHEMICALS**

**IMMUNE TO  
FIRE DANGERS**

**LOW NOISE**

## Green Technology

Lithium  
**WhisperTech™**  
Battery System

- State-of-the-art lithium ion battery
- Zero fossil fuels used and zero greenhouse gases emitted during operation.
- Recharges from a standard 110 or 220 outlet
- Operates and charges at temperatures down to -20°C (-4°F)
- Proprietary LITHIUM WHISPERTECH™ Battery System makes this machine virtually silent - ideal for inside and neighborhood/urban environments
- Charges from empty to full in 5 hours (220 outlet)
- LED lamps rated for 50,000 hours (25 year life)

**20 HOUR  
RUN TIME**

**ZERO  
EMISSIONS**

**NO  
SPECIAL  
CHARGER  
NEEDED**

**40,000  
HOUR  
BATTERY LIFE**

An  Company

# Standard Features

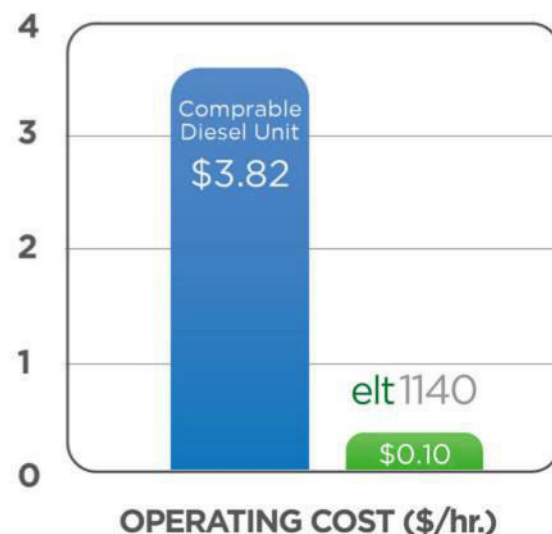

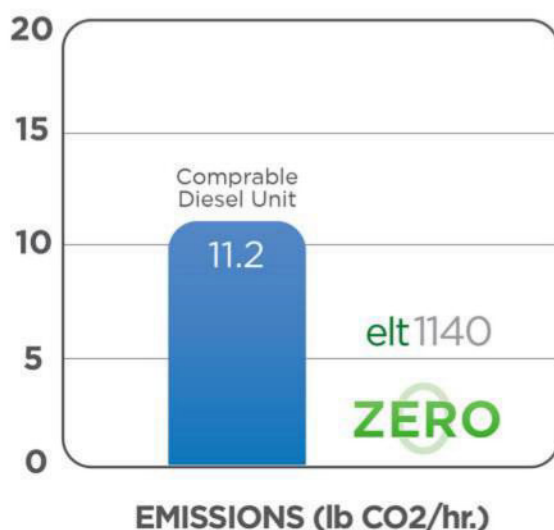

- Convenient towing hitch rated at 2150lb.
- Same mast height and stowing size as comparable diesel units
- Four 110V/ 20A convenience outlets
- 10 hour timer eliminates potential battery run down

- LED lamps – brighter and higher quality light than traditional metal halide bulbs
- LED lamps are more durable than conventional metal halide
- “Instant on” versus 5 – 10 minute warm-up for metal halide
- Light fixtures can be switched on independently
- Battery rated for 40,000 hours of use
- Approved by the Electrical Safety Authority Field Evaluation\*

*\*This unit has been manufactured in compliance with the CSA Model Code SPE-1000-13. It has been evaluated by ESAFE to these requirements.*

## Electric Versus Diesel
